Micro Dermabrasion Cream with Hyaluronic Acid, Matrixyl 3000 & Shea Butter

Congratulations on your purchase of Bellahut’s Microdermabrasion Cream. This cream is made from non-animal stabilized hyaluronic acid which is a pure plant-based form of hyaluronic acid. Products of this quality tend to have a cost of nearly three to four times more than the Bellahut Price. All of our creams, serums and gels are proudly made in the U.S.A. and have been since inception. We pride ourselves on return customers so satisfaction from our customers is key. Please enjoy this product and if you have any questions please contact us at the email address above. Thank you for being a Bellahut customer!

Directions: Apply a small amount on clean skin on face, neck (arms, legs or body, ect...), gently massage in a rotational pattern, rinse with water, then follow with the moisturizer (strongly suggested), use once or twice a week. For best results use in combination with our Bellahut Nano Facial Filling Serum that is a 100% Nasha-grade hyaluronic acid serum. Aggressive rubbing will likely cause irritation and won’t produce any better results. Also it is a good idea not to apply alpha hydroxy acids or salicylic acid within 12 hours of the treatment. For external use only.

Key Ingredients:

Hyaluronic acid is a naturally occurring acid found in the extracellular matrix of human tissue. Topically applied, hyaluronic acid forms an air permeable layer and penetrates into the dermis thus boosting the elasticity by affecting the collagen levels and increasing hydration of the skin.

Matrixyl 3000 is an amazing collagen builder and is the trademark name for palmitoyl pentapeptide-3, one of the powerful peptide molecules found in the latest generation of high-end anti-wrinkle skin care products. This breakthrough ingredient stimulates collagen production in the skin and can even give BOTOX® injections a run for their money in the anti-wrinkle department. Matrixyl becomes even more effective when combined with other peptides. The researchers reported, “A highly significant reduction in the deep and moderate wrinkles was obtained on the side treated with 3% Matrixyl. At the conclusion of the study, the surface area occupied by deep wrinkles was reduced by mean of 68%. The surface area occupied by moderate wrinkles was reduced by mean of 51%.”

- Reduction in depth of regular wrinkles up to 29%
- Increase overall Collagen synthesis by up to 117%
- Increase Collagen IV synthesis by up to 357%
- Increase Hyaluronic Acid by up to 267%

Ingredients: Deionized Water, Aluminum Silica (Bauxite), Glyceryl Stearate, Butyrospermum Parkii (Shea Butter), Hyaluronic Acid, Matrixyl 3000 (Palmitoyl Tripeptide-1 and Palmitoyl Tetrapeptide-7), Persea Gratissima (Avocado) Oil, Vitis Vinifera (Grape Seed) Oil, Simmondsia Chinensis (Jojoba) Oil, Cannabis Sativa (Hemp) Seed Oil, Caprylic/Capric Triglyceride, Glycerin, Stearic Acid, Tocopherol (Vitamin E), Cetyl Alcohol (Fatty Acid), Phenoxyethanol and Caprylyl Glycol (Optiphen®).

Cautions: Although rare, should you experience any irritation discontinue use of this product. Keep away from eyes and the mouth. After this procedure make sure your skin is treated with a quality moisturizer. Micro dermabrasion treated skin should also be protected from the sun by the use of sunscreen. Avoid direct sunlight for a few days after use. Keep away from children.
