Infinity Hydration Face Cream with Pentavitin, Vitamin E and Sunflower Oil

Congratulations on your purchase of Bellahut’s Infinity Hydration Face Cream. Products of this quality tend to have a cost of nearly three to four times more than the Bellahut Price. All of our creams, serums and gels are proudly made in the U.S.A. and have been since inception. We pride ourselves on return customers so satisfaction from our customers is key. Please enjoy this product and if you have any questions please contact us at the email address above. Thank you for being a Bellahut customer!

Directions: Apply on cleansed and toned skin either day or night. Use as often as needed.

Put a dab of cream on your finger and gently massage into the desired area. Keep in mind this cream can be used on both face and body.

(Optional) As a precursor you can use any of Bellahut’s Hyaluronic Acid Serums previous to apply this cream.

Key Ingredients:

PENTAVITIN ensures instant, deep hydration by generating a moisture reservoir that lasts for up to 72 hours from the final application. It also offers valuable benefits such as a 50% improvement in skin smoothness and softness and more than 50% reduction in flakiness and itchiness caused by dry skin after only two weeks of application. This ingredient is an identical carbohydrate complex of naturally occurring saccharides and is a 100% natural, plant-derived ingredient with both ECOCERT approval and NATRUE certifications. It is preservative free and will provide a gentle, effective moisturizing effect for your skin. As proven by extensive in-vivo and gene expression studies this peptide leads to more and better hydrated epidermal cells and an improved skin barrier.

Vitamin E is known for helping to reduce the appearance of scars. Another role of Vitamin E in skin care is primarily to work as an antioxidant but it has worked to soften skin as well. Vitamin E also helps to eliminate free radicals and that helps to build a better level of collagen in the skin.

Hyaluronic acid is a naturally occurring acid found in the extracellular matrix of human tissue. Topically applied, hyaluronic acid forms an air permeable layer and penetrates into the dermis thus boosting the elasticity by affecting the collagen levels and increasing hydration of the skin.

Ingredients: Deionized Water, Aloe Barbadensis Leaf Juice, Glyceryl Stearate, Persea Gratissima (Avocado) Oil, Simmondsia Chinensis (Jojoba) Seed Oil, Vitis Vinifera (Grape) Seed Oil, Sunflower Oil, Hyaluronic Acid, Pentavitin® (Saccharide Isomerate), Glycerin, Butyrospermum Parkii (Shea Butter), Caprylic/Capric Triglyceride, Squalane/Olea Europaea (Olive) Fruit Oil, Stearic Acid, Cyclopentasiloxane, Tocopherol (Vitamin E), Cetyl Alcohol, Phenoxyethanol and Caprylyl Glycol (Optiphen®).

Cautions: Although rare, should you experience any irritation discontinue use of this product. Bellahut’s hydrating creams hydrate so well that it is possible to overhydrate. Overhydration can cause small bumps on the skin. If this occurs, stop using this product for three days and your skin should return to normal. You may start using again at a reduced rate, we recommend every-other day, at this point.
