Dual Cellulite Defense Cream

Congratulations on your purchase of Bellahut's Dual Cellulite Defense Cream. All of our creams, serums and gels are proudly made in the U.S.A. and have been since inception. We pride ourselves on return customers so satisfaction from our customers is key. Please enjoy this product and if you have any questions please contact us at the email address above. Thank you for being a Bellahut customer!

Directions: Apply on cleansed and toned skin either day or night. Use twice daily for best results.

Put a dab of cream on your finger and gently massage into the desired area.

Key Ingredients:

Matrixyl S6 is the latest addition to the Matrixyl family of peptides. This peptide focuses on stimulation of six major contents of the skin. Collagen I, Collagen III, Collagen IV, Fibronectin, Hyaluronic Acid and Laminin-5. Studies have shown collagen type I had increased by 105%, collagen type III had increased by 104% and collagen type IV had increased by 42%. When applied as a crow's feet treatment studies have shown a reduction in wrinkles by over 16% and when applied as a treatment for wrinkles on the forehead studies have shown a reduction in wrinkles by 32%. The best thing is that this peptide treats the skin differently than Matrixyl 3000 and Matrixyl so they can be used with each other in order to create very effective wrinkle fighting creams, serums and other skin care products.

Pepha®Tight has been referred as a liquid face lift by many. This formulation has algae and contains pullulan which is a film former, which is water soluble, that gives this ingredient the ability to form a thin film over the skin creating an instant firming effect. Pepha®Tight also contains polysaccharides which help accelerate the oxygenation of the skin, in turn, this helps cellular turnover and the building of collagen and elastin. More collagen means less wrinkles.

Bellahut's Cellulite Removal Complex This complex is derived from Citrus aurantium (subspecies amara), or Bitter Orange, it is a spiny evergreen tree that is native to Southern Vietnam but is now widely cultivated. It is used as a grafting stock for citrus trees, in marmalade, in liqueurs, and it is also cultivated for its essential oils. The extract of Bitter Orange has been used in dietary supplements as an aid to fat-loss, is known to have anti-cellulite properties, and is loaded with vitamins and minerals (especially Vitamin C).

Ingredients:

Deionized Water, Aloe Barbadensis Leaf Juice, Glyceryl Stearate, Matrixyl S6, Pepha-Tight, Citrus Aurantium Extract, Persea Gratissima (Avocado) Oil, Simmondsia Chinensis (Jojoba) Seed Oil, Vitis Vinifera (Grape) Seed Oil, Glycerin, Butyrospermum Parkii (Shea Butter), Caprylic/Capric Triglyceride, Squalane/Olea Europaea (Olive) Fruit Oil, Stearic Acid, Cyclopentasiloxane, Tocopherol (Vitamin E), Cetyl Alcohol, Phenoxyethanol and Caprylyl Glycol (Optiphen®).

Cautions: Although rare, should you experience any irritation discontinue use of this product. Bellahut's hydrating creams hydrate so well that it is possible to overhydrate. Overhydration can cause small bumps on the skin. If this occurs, stop using this product for three days and your skin should return to normal. You may start using again at a reduced rate, we recommend every-other day, at this point.
