100% Hyaluronic Acid Cream with Syn-Ake and Leuphasyl

Congratulations on your purchase of Bellahut’s 100% Hyaluronic Acid Cream. This cream is made from non-animal stabilized hyaluronic acid which is a pure plant-based form of hyaluronic acid. Products of this quality tend to have a cost of nearly three to four times more than the Bellahut Price. All of our creams and serums are proudly made in the U.S.A. and have been since inception. We pride ourselves on return customers so satisfaction from our customers is key. Please enjoy this product and if you have any questions please contact us at the email address above. Thank you for being a Bellahut customer!

Directions: Apply on cleansed and toned skin either day or night. Use as often as needed.

Put a dab of cream on your finger and gently massage into the desired area. Keep in mind this cream can be used on both face and body.

(Optional) As a precursor you can use any of Bellahut’s Hyaluronic Acid Serums previous to apply this cream.

Key Ingredients:

Hyaluronic acid is a naturally occurring acid found in the extracellular matrix of human tissue. Topically applied, hyaluronic acid forms an air permeable layer and penetrates into the dermis thus boosting the elasticity by affecting the collagen levels and increasing hydration of the skin.

SYN-AKE is a small molecular weight synthetic peptide that smoothens expression lines by topical application. It mimics the activity of Waglerin-1, a natural occurring peptide found in temple viper venom which has a strong ability to relax muscle contraction.

Leuphasyl reduces the depth of expression wrinkles, especially in the forehead and around the eyes. It also targets "in vitro" the wrinkle formation mechanism of expression wrinkles in a new way offering an alternative/complement to peptides.

Ingredients: Deionized Water, Aloe Barbadensis Leaf Juice, Sodium Hyaluronate, Syn-Ake (Dipeptide Diaminobutyroyl Benzylamide Diacetate), Leuphasyl (Pentapeptide-18 & Glycerin), Butyrospermum Parkii (Shea Butter), Mangifera Indica (Mango) Seed Butter, Olea Europaea (Olive) Oil, Prunus Amygdalus Dulcis (Sweet Almond) Oil, Persea Gratissima (Avocado) Oil, Helianthus Annuus (Sunflower) Seed Oil, Vitis Vinifera (Grape) Seed Oil, Caprylic/Capric Triglyceride, Glycerin, Stearic Acid, Glyceryl Stearate, Cetyl Alcohol, Tocopherol (Vitamin E), Cyclopentasiloxane, Phenoxyethanol and Caprylyl Glycol (Optiphen®).

Cautions: Although rare, should you experience any irritation discontinue use of this product. Bellahut’s hydrating creams hydrate so well that it is possible to overhydrate. Overhydration can cause small bumps on the skin. If this occurs, stop using this product for three days and your skin should return to normal. You may start using again at a reduced rate, we recommend every-other day, at this point.
