**Triple Action Eye Contour Cream with Argireline, Eyeliss and Haloxyl**

Congratulations on your purchase of Bellahut’s Triple Action Eye Contour Cream. This cream is of the highest quality and contains concentrated quantities of peptides for quick and dramatic results. Products of this quality tend to have a cost of nearly three to four times more than the Bellahut Price. All of our creams and serums are proudly made in the U.S.A. and have been since inception. We pride ourselves on return customers so satisfaction from our customers is key. Please enjoy this product and if you have any questions please contact us at the email address above. Thank you for being a Bellahut customer!

**Directions:** Apply on cleansed and toned skin. Bellahut recommends using this product twice daily for best results.

Put a pea sized amount of cream on your finger and gently massage into the skin underneath the eye area.

**Key Ingredients:**

**Argireline** is a peptide that helps with prevention of wrinkles in the skin. When it is absorbed into the body and the cream's chemical composition causes the facial muscles to contract with less force helping with the reduction of wrinkles. This peptide can be quite effective, and in some cases with just the use of Argireline alone, users have experienced up to a 30% reduction in fine lines and wrinkles.

**Eyeliss** contains three peptides, Hesperidin Methyl Chalcone, Dipeptide Valyl-Tryptophane and Lipopeptide Pal-GQPR. Clinical studies have shown it to be very effective in reducing under eye puffiness, dark circles and bags and in tests, 70% of users showed a vast improvement in less than 2 months.

- **Hesperidin Methyl Chalcone** is a natural ingredient derived from flavonoid hesperidin found in citrus fruits like grapefruit and oranges. This rather newly discovered ingredient helps to strengthen capillaries and veins as well to improve lymphatic drainage and circulations which tones the delicate under eye area.
- **Dipeptide Valyl-Tryptophane** is a peptide that promotes the drainage of fluid that collects under the eye creating bags and puffiness.
- **Lipopeptide Pal-GQPR** is another peptide that decreases inflammation, improves skin elasticity and firmness, and reduces fine lines and wrinkles.

**Haloxyl** is a synthetic ingredient made to reduce dark circles under the eyes and studies have shown an improvement between 19% and up to 45%. In some cases, in the complete reduction of dark circles has been accomplished.

**Ingredients:**

Deionized Water, Dimethicone, Butylene Glycol, Caprylyl Methicone, Hyaluronic Acid, Argirelin, Eyeliss, Haloxyl (N-Hydroxysuccinimide, Chrysin, Palmitoyl Tripeptide-1, Palmitoyl Tetrapeptide-7), Glycerin, Pyrus Malus (Apple) Fruit Extract, Oryza Sativa (Rice) Bran Extract, Rosmarinus Officinalis (Rosemary) Leaf Extract, Helianthus Annuus (Sunflower) Extract, Tocopherol, Polysorbate 20, Xanthan Gum, Corn Starch, Dimethicone Copolymer, Ammonium Acryloyldimethyltaurate-VP Copolymer, Sodium Gluconate, Phenoxyethanol, Caprylyl Glycol, Hexylene Glycol, Ethylhexylglycerin

**Cautions:** Although rare, should you experience any irritation discontinue use of this product. Keep out of reach of children.
