Lightening Mask Powder with MAP & Vitamin C

Congratulations on your purchase of Bellahut's Lightening Mask Powder. This powder is of the highest quality and contains concentrated quantities of peptides for quick and dramatic results. All of our creams and serums are proudly made in the U.S.A. and have been since inception. We pride ourselves on return customers so satisfaction from our customers is key. Please enjoy this product and if you have any questions please contact us at the email address above. Thank you for being a Bellahut customer!

Directions: Can be used as a facial mask or body wrap. This mask is not a clay mask it is a soft-touch peel off powder that does not dry quickly. By staying hydrated this helps keep the ingredients on the skin longer and enhance the results. This mask can remain wet up to 60 minutes if you applied a thick layer. A thick layer is recommended for the best result. Mix 1 packet with 2 to 3 tablespoons of water to make a paste that will create a thick layer of mask.

Key Ingredients:

L-Ascorbic Acid (Vitamin C) is most commonly known as Vitamin C, a powerful antioxidant that helps to neutralize cell damage of free radicals. It used to fade away dark spots, sun damage and age spots. It is a water-soluble solution that is essential for growth and repair for many parts of the body. Ascorbic acid is an important component for the synthesis of collagen and it also is essential in wound healing and the maintenance of cartilage.

MAP (Magnesium Ascorbyl Phosphate) is a form of Vitamin C in a water-soluble form. Using in Bellahut's powder mask along with L-Ascorbic acid this allows both MAP and L-Ascorbic acid to work hand in hand with each other to give the maximum lightening effect.

Ingredients:

Cautions: Although rare, should you experience any irritation discontinue use of this product. Keep out of reach of children.
