**Key Ingredients:**

**B3 Niacinamide** helps protect the skin's immune function and gently suppresses transfer of melanosome packets from the melanocyte to the keratinocyte while regulating excessive sebum output without leaving skin feeling dry or stripped. Also helps to enlarge pores, even skin tones and helps to reduce fine lines and wrinkles. B3 is also known for visibly improving dull skin and strengthening weakened surfaces.

**Tripeptide-5** (Palmitoyl tripeptide-5, aka **Syn-coll**) is a highly bioactive, deeply skin penetrating peptide (palmitoyl tripeptide-5) able to activate tissue growth factor (TGF-beta) that stimulates collagen synthesis in the skin. It can actively iron out wrinkles is good for skin firming and has great moisturizing properties. It works great on stretch marks and has been clinically proven to be effective and safe and in some cases a good alternative to collagen injections.
