Key Ingredients:

Hyaluronic acid is a naturally occurring acid found in the extracellular matrix of human tissue. Topically applied, hyaluronic acid forms an air permeable layer and penetrates into the dermis thus boosting the elasticity by affecting the collagen levels and increasing hydration of the skin.

Hydrolyzed Silk helps in the retention of moisture. Nearly 10x more than hyaluronic acid hydrolyzed silk is capable of storing nearly 10K times its weight in water making it an extreme moisturizer.

Active Gold helps to increase and accelerate blood circulation, and works as an antioxidant against free radicals. It helps to reduce fine lines and wrinkles and helps to increase firmness and elasticity of the skin.

Water, Aloe Barbadensis Leaf Juice, Sodium Hyaluronate, Hydrolyzed Silk, Active Gold, Glycerin, Ceratonia Siliqua Gum, Tocopheryl Acetate, Hydrolyzed Collagen, Polysorbate 80, Disodium EDTA, Potassium Sorbate.
