**Bellahut's Collaxyl Peptide
 Collagen Booster & Treating Acne and Skin Scars**

Congratulations on your purchase of Bellahut's Collaxyl Peptide. We pride ourselves on return customers so satisfaction from our customers is key and very important to us.

Please enjoy this product and if you have any questions please contact us at the email address above. Thank you for being a Bellahut customer!

Directions: Mix this peptide with a cream, gel or serum in order to make your own custom skin care solution. Keep in mind you should only mix this peptide at a **maximum rate of 5%**.

Key Ingredients:

Collaxyl: Collaxyl stimulates fibroblasts in aged skin to produce more collagen and constantly reminds our cells to replenish water and synthesize collagen. When stimulated, the skin produces more collagen. Loss of collagen is what leads to thinning skin and the wrinkling of newly inelastic skin. Collaxyl helps to counteract this natural part of the aging process.

Collaxyl can significantly reduce the appearance of wrinkles with no side effects because it is not extracted from animals, it is therefore free of any animal infectious or allergen. In clinical studies (72 hours with Collaxyl 1%,3% and 5%) Collaxyl was shown to:

1. Increase overall collagen synthesis by up to 117%.
2. increase collagen IV synthesis by up to 357%
3. increase hyaluronic Acid by up to 267%

It also was shown to reduce the surface area occupied by deep wrinkles by a mean of 68% and the surface area occupied by moderate wrinkles was reduced by a mean of 51%

Ingredients:
 Collaxyl Peptide

INCI Name: Water (and) Glycerin (and) Hexapeptide-9

Cautions: Do not apply undiluted peptides or additives directly onto your skin. This is designed to be added to a formulation at the recommended maximum usage rate or less.

You can use Bellahut's premium cream or gel as your base for your formulation.
