Bellahut's Biopeptide CL Peptide
Collagen booster for the reduction of stretch marks

Congratulations on your purchase of Bellahut's Biopeptide CL Peptide. We pride ourselves on return customers so satisfaction from our customers is key and very important to us.

Please enjoy this product and if you have any questions please contact us at the email address above. Thank you for being a Bellahut customer!

Directions: Mix this peptide with a cream, gel or serum in order to make your own custom skin care solution. Keep in mind you should only mix this peptide at a **maximum rate of 5%.**

Key Ingredients:

Biopeptide CL stimulates the synthesis of collagen and hyaluronic acid in the deep layers of the skin. In addition, palmitoyl oligopeptide has a mild UV protection effect, thus helping to protect the skin from damage. It's always best to try to prevent stretch marks before they start to form. If you use lotion daily or apply stretch mark creams during your pregnancy, you have a better chance having a smooth belly without any ugly blemishes.

Stretch mark cream and lotion consisting of Palmitoyl Oligopeptide helps in the prevention of wrinkle formation during pregnancy and also removal of stretch marks after pregnancy. Not only with stretch marks but Biopeptide CL is also helpful for aging skin as well.

Ingredients:

Biopeptide CL Peptide

INCI: Glycerin, Water, Butylene Glycol, Carbomer, Polysorbate 20, Palmitoyl Oligopeptide, Palmitoyl Tetrapeptide-3,7

Cautions: Do not apply undiluted peptides or additives directly onto your skin. This is designed to be added to a formulation at the recommended maximum usage rate or less.

You can use Bellahut's premium cream or gel as your base for your formulation.
