**Bellahut’s Trylagen Peptide  
 Collagen Booster, Organizer & Protector**

Congratulations on your purchase of Bellahut’s Trylagen Peptide. We pride ourselves on return customers so satisfaction from our customers is key and very important to us.

Please enjoy this product and if you have any questions please contact us at the email address above. Thank you for being a Bellahut customer!

**Directions:** Mix this peptide with a cream, gel or serum in order to make your own custom skin care solution. Keep in mind you should only mix this peptide at a **maximum rate of 8%**.

**Key Ingredients:**

TRYLAGEN is a combination of active peptides and proteins that can fight the processes that affect the quantity and quality of collagen as we age. It acts on collagen via 3 main functions:

**A) Collagen boosting**

During aging, the synthesis of collagen gradually declines. The active ingredients in TRYLAGEN boost the synthesis of collagen types I, III and IV, helping to compensate for our decreased production as we age.

**B) Collagen organization**

The process of fibrillogenesis results in the formation of collagen bundles that are responsible for the strength and resiliency of the skin. TRYLAGEN controls collagen fibril dimensions by providing uniform to their diameter and spacing them regularly. This provides a better cohesion and stabilization of collagen fibers, and gives suppleness to the skin.

**C) Collagen protection**

After a certain age the degradation of collagen speeds up, due to an increase in MMP (matrix metalloproteinases) levels. Collagenases, a specific type of MMP, cleave fibrillar collagen into smaller fragments, which are then susceptible to further proteolysis. TRYLAGEN inhibits the production of human MMP-2 and MMP-3, therefore avoiding excessive collagen damage in aged skin. Its anti-collagenase activity protects collagen from degradation.

**Ingredients:**

Trylagen Peptide

**INCI:** Glycerin, Water, Butylene Glycol, Carbomer, Polysorbate 20, Palmitoyl Oligopeptide, Palmitoyl Tetrapeptide-3,7

**Cautions:** Do not apply undiluted peptides or additives directly onto your skin. This is designed to be added to a formulation at the recommended maximum usage rate or less.

You can use Bellahut's premium cream or gel as your base for your formulation.
