**Bellahut's Lip Contour Complex
 Helps Firm and Plump Lips**

Congratulations on your purchase of Bellahut's Lip Contour Complex. We pride ourselves on return customers so satisfaction from our customers is key and very important to us.

Please enjoy this product and if you have any questions please contact us at the email address above. Thank you for being a Bellahut customer!

Directions: Mix this peptide with a cream, gel or serum in order to make your own custom skin care solution. Keep in mind you should only mix this peptide at a **maximum rate of 8%**.

Key Ingredients:

Tripeptide-29 is a highly purified peptide consisting of amino acids glycine and proline plus amino acid derivative hydroxyproline. Applied to skin, it's been shown to strengthen skin's supportive elements. This improves uneven texture and the look of fine lines and also helps reverse a dehydrated appearance.

In order to maintain the firm appearance of the lip and address long term anti-aging claims, we incorporate collagen pre peptide (G-P-Hyp). Its presence attracts and activates keratinocyte growth factor (KGF) modulating tissue repair and remodeling. Not only does G-P-Hyp stimulate collagen production it also provides the added draw of peptide base active ingredient.

BENEFITS

- Define contours and lessen wrinkles.
- Cool and refresh skin while moisturizing.
- Formulated to help reshape the look of lip area.
- Suitable for all types / sensitive skin.

INCI: Hyaluronic Acid & Tripeptide-29

Cautions: Do not apply undiluted peptides or additives directly onto your skin. This is designed to be added to a formulation at the recommended maximum usage rate or less.

You can use Bellahut's premium cream or gel as your base for your formulation.
