100% Hyaluronic Acid Serum with Eyeliss and Haloxyl

Congratulations on your purchase of Bellahut’s 100% Hyaluronic Acid Serum. This serum is made from non-animal stabilized hyaluronic acid which is a pure plant-based form of hyaluronic acid. Products of this quality tend to have a cost of nearly three to four times more than the Bellahut Price. All of our creams and serums are proudly made in the U.S.A. and have been since inception. We pride ourselves on return customers so satisfaction from our customers is key. Please enjoy this product and if you have any questions please contact us at the email address above. Thank you for being a Bellahut customer!

Directions: Apply on cleansed and toned skin either day or night as often as needed.

Put a few drops of serum on your finger and gently massage into the desired area. Keep in mind this serum can be used on both face and body.

(Optional) Follow up with any of Bellahut’s Hyaluronic Acid Creams or the cream of your choice.

Key Ingredients:

Hyaluronic acid is a naturally occurring acid found in the extracellular matrix of human tissue. Topically applied, hyaluronic acid forms an air permeable layer and penetrates into the dermis thus boosting the elasticity by affecting the collagen levels and increasing hydration of the skin.

Eyeliss™ contains three peptides, Hesperidin Methyl Chalcone, Dipeptide Valyl-Tryptophane and Lipopeptide Pal-GQPR. Clinical studies have shown it to be very effective in reducing under eye puffiness, dark circles and bags and in tests, 70% of users showed a vast improvement in less than 2 months.

- **Hesperidin Methyl Chalcone** is a natural ingredient derived from flavonoid hesperidin found in citrus fruits like grapefruit and oranges. This rather newly discovered ingredient helps to strengthen capillaries and veins as well to improve lymphatic drainage and circulations which tones the delicate under eye area.
- **Dipeptide Valyl-Tryptophane** is a peptide that promotes the drainage of fluid that collects under the eye creating bags and puffiness.
- **Lipopeptide Pal-GQPR** is another peptide that decreases inflammation, improves skin elasticity and firmness, and reduces fine lines and wrinkles.

Haloxyl is an ingredient made to reduce dark circles under the eyes and studies have shown an improvement between 19% and up to 45%. In some cases, in the complete reduction of dark circles has been accomplished. This product is specifically targeted to treat one of the most chronic under eye issues, dark eye circles.

Ingredients:

Deionized Water, Sodium Hyaluronate (nasha grade), Aloe Barbadensis (Aloe Leaf) Gel, Vegetable Glycerine, Cucumis Sativus (Cucumber) Fruit Extract, Chrysin, Pentavitin®(Saccharide Isomerate), Palmitoyl Oligopeptide, N-Hydroxysuccinimide, Matrixyl 3000 (Palmitoyl Tetrapeptide-3,7), Eyeliss™, Haloxyl™, Steareth-20, Polysorbate- 20, Carbomer, Phenoxyethanol and Caprylyl Glycol (Optiphen®).

Cautions: Although rare, should you experience any irritation discontinue use of this product. Bellahut’s hydrating serums hydrate so well that it is possible to overhydrate. Overhydration can cause small bumps on the skin. If this occurs, stop using this product for three days and your skin should return to normal. You may start using again at a reduced rate, we recommend every-other day, at this point.
