**70% Hyaluronic Acid Serum with Phytocelltec & Copper (GHK-Cu)
 Cellular Boost Serum**

Congratulations on your purchase of Bellahut’s 100% Hyaluronic Acid Serum. This serum is made from non-animal stabilized hyaluronic acid which is a pure plant-based form of hyaluronic acid. Products of this quality tend to have a cost of nearly three to four times more than the Bellahut Price. All of our creams and serums are proudly made in the U.S.A. and have been since inception. We pride ourselves on return customers so satisfaction from our customers is key. Please enjoy this product and if you have any questions please contact us at the email address above. Thank you for being a Bellahut customer!

Directions: Apply on cleansed and toned skin either day or night as often as needed.

Put a few drops of serum on your finger and gently massage into the desired area. Keep in mind this serum can be used on both face and body.

(Optional) Follow up with any of Bellahut’s Hyaluronic Acid Creams or the cream of your choice.

Key Ingredients:

Hyaluronic acid is a naturally occurring acid found in the extracellular matrix of human tissue. Topically applied, hyaluronic acid forms an air permeable layer and penetrates into the dermis thus boosting the elasticity by affecting the collagen levels and increasing hydration of the skin.

PhytoCellTec (Apple Stem Cells) preserves the ability to form new epidermal tissue. Young and vital epidermal stem cells can form a complete, multi-layer epidermis in laboratory conditions. When this experiment is conducted on older stem cells, these no longer multiply and no epidermis is formed. These stem cells are depleted and have reached the end of their lifecycle. If Malus Domestica stem cell extract is added to "old" cultivated stem cells, the cells can still generate a stratified epidermis. Under the influence of Malus Domestica stem cell extract, the epidermal stem cells retain their vitality longer and are capable of forming new tissue and renewing the skin.

Copper (GHK-Cu) Tripeptide-1 is naturally occurring in the body. It is composed of the amino acids Glycyl-histidyl-lysine, which spontaneously bind to copper, also known as GHK Cu. Copper Tripeptide-1 has many benefits within the human body such as the production of glycosaminoglycans, which help in the reduction of wrinkles. Copper peptide also helps to remove damaged collagen. It improves skin elasticity, works to even skin tones and also has been known to help reduce inflammation.

Ingredients: Glycerin, R.O.Water, Carbomer 940, L-Ascorbic Acid (VitaminC), Glyceryl Polyacrylate, Palmitoyl Lys-Thr-Thr-Lys-Ser (oligopeptide), Sodium Hyaluronate, Phytocelltec (Apple Stem Cells), Copper Peptide (GHK-Cu) Diazolidnnyl Urea, Oil of Olea Europaea, Cyclopentasiloxane, Polysilicone 11, Silica, Cetyl Alcohol, Gynostemma Pentaphyllum Extract, Helianthus Annuus (Sunflower) Seed oil, Hesperidin Methyl Chalcone, Hydroxysuccinimide, Chrysin, Hibiscus Sabdariffa Flower Extract, Palmitoyl Oligopeptide, Whey Protein, Steareth-20, Stearic Acid, Polyglyceryl-3 Beeswax, Triethanolamine, Phenoxyethanol.

Cautions: Although rare, should you experience any irritation discontinue use of this product. Bellahut’s hydrating serums hydrate so well that it is possible to overhydrate. Overhydration can cause small bumps on the skin. If this occurs, stop using this product for three days and your skin should return to normal. You may start using again at a reduced rate, we recommend every-other day, at this point.
