### Ultimate Age Defying Serum

Congratulations on your purchase of Bellahut's Ultimate Age Defying Serum. All of our creams and serums are proudly made in the U.S.A. and have been since inception. We pride ourselves on return customers so satisfaction from our customers is key. Please enjoy this product and if you have any questions please contact us at the email address above. Thank you for being a Bellahut customer!

#### Key Ingredients:

**Argireline** is a peptide that helps with prevention of wrinkles in the skin. When it is absorbed into the body and the cream's chemical composition causes the facial muscles to contract with less force helping with the reduction of wrinkles. This peptide can be quite effective, and in some cases with just the use of Argireline alone, users have experienced up to a 30% reduction in fine lines and wrinkles.

**DMAE** is an amazing nutrient that extends the life of cells, inhibits the cross linking of proteins, which gives the skin a tone and firm appearance.

**Retinol** also known as Vitamin A is a very effective ingredient in so many of today's anti-aging products. Retinol is now available in a consumer strength and is one of the key elements in creating a skin care product that helps to reduce wrinkles and fine lines, help rebuild collagen and make skin more radiant and even skin tones. Retinol is safe, effective and now at Bellahut, affordable!

**Alpha Lipoic Acid** is an antioxidant. It helps to restore skin and give a renewed skin appearance by improving skin texture and tone. Used at a lower concentration this enzyme works great to help restore a youthful look and slow down the aging process. Alpha Lipoic Acid also works as an anti-inflammatory to help reduce pore size.

**Coenzyme Q10** helps to build the skins collagen levels and increase elastin. As we age the level of Q10 decreases and the ability of our skin to hold its shape is lost causing wrinkles, lines and rough skin. By replenishing this well needed ingredient the skin regains its ability to stay firm, resist wrinkles and reduce existing wrinkles.

**Tripeptide-5 ( Palmitoyl tripeptide-5, aka Syn-coll )** is a highly bioactive, deeply skin penetrating peptide (palmitoyl tripeptide-5) able to activate tissue growth factor (TGF-beta) that stimulates collagen synthesis in the skin. It can actively iron out wrinkles is good for skin firming and has great moisturizing properties. It works great on stretch marks and has been clinically proven to be effective and safe.

**Niacinamide (B5)** helps protecting the skin's immune function and gently suppresses transfer of melanosome packets from the melanocyte to the keratinocyte while regulating excessive sebum output without leaving skin feeling dry or stripped. Niacinamide (B5) also increases the rate of skin exfoliation and increases moisture barrier repair.

**Multifruit BSC** is a concentrated blend of five botanical extracts: bilberry, sugar cane, sugar maple, orange, and lemon. These extracts contain several naturally occurring alpha hydroxy acids. Alpha hydroxy acids have been shown to promote smoother, younger looking skin by increasing the rate of cell renewal.
