Thank you for being a Bellahut customer!

Key Ingredients:

DMAE is an amazing nutrient that helps to extend the life of cells by inhibiting the cross linking of proteins this gives the skin a tone and firm appearance. DMAE offers anti-aging ability by helping to reduce the appearance of wrinkles, reduce dark circles under the eyes and improve sagging skin by the neck line and jawline. The firm appearance that DMAE provides takes about 20 minutes to occur and usually wears off by the end of the day. DMAE has become very popular as a result of Dr. Nicholas Perricone, M.D.'s top-selling book, *The Wrinkle Cure*, in which he promotes supplementing with DMAE as a treatment for reducing wrinkles. When applied to the skin DMAE stimulates acetylcholine release which triggers a response in the muscles of the face. This activity creates a firmer facial tone and less sagging.

MSM is found in all living organisms and in the human body it acts as glue to hold together amino acids. MSM feeds the formation of collagen and elastin while preventing and reducing cross-linking between cells which is the primary cause of wrinkles and scar tissue. We've seen reports of MSM eliminating wrinkles, brown spots, spider veins and being an effective acne fighter and acne scar reducer. MSM has been used to help with the repair of scar tissue for burn victims. Many report relief from allergies after using MSM too. Other reports have indicated that MSM will remove parasites from the body, and help the body to detoxify itself.
