Thank you for being a Bellahut customer!

Key Ingredients:

Collaxyl is a clinically proven preservative free ingredient that helps to visibly reduce the length and depth of wrinkles. It has also been shown to be highly effective in the reduction of acne scars.

PhytoCellTec preserves the ability to form new epidermal tissue. Young and vital epidermal stem cells can form a complete, multi-layer epidermis in laboratory conditions. When this experiment is conducted on older stem cells, these no longer multiply and no epidermis is formed. These stem cells are depleted and have reached the end of their lifecycle. If Malus Domestica stem cell extract is added to "old" cultivated stem cells, the cells can still generate a stratified epidermis. Under the influence of Malus Domestica stem cell extract, the epidermal stem cells retain their vitality longer and are capable of forming new tissue and renewing the skin.
