Key Ingredients:

Collagen is a protein that is a major component of connective tissues in our skin. It is responsible for providing your skin with structure. This protein helps to keep your skin firm and wrinkle free when high amounts are present. When we are young, our bodies have high levels of collagen but as we age our collagen levels decline. As our collagen levels decline our skin becomes wrinkled as the structure is compromised and there is not enough collagen to maintain skin firmness. Replenishing collagen is the key to helping your skin keep its young appearance and reduce wrinkles. Another well-known benefit of collagen in skin care is its ability to promote vibrant and glowing skin.

Hyaluronic Acid - Bellahut's high quality pure grade Hyaluronic Acid cream base is non-greasy and absorbs quickly into the skin. HA is a naturally occurring acid found in the extracellular matrix of human tissue. Topically applied hyaluronic acid forms an air permeable layer and penetrates into the dermis thus boosting the elasticity by affecting the collagen levels and increasing hydration of the skin.
