**Bellahut's Cellulite Removal Complex
 Helps Reduce Cellulite (Body or Facial Application)**

Congratulations on your purchase of Bellahut's Cellulite Removal Complex. We pride ourselves on return customers so satisfaction from our customers is key and very important to us.

Please enjoy this product and if you have any questions please contact us at the email address above. Thank you for being a Bellahut customer!

Directions: Mix this peptide with a cream, gel or serum in order to make your own custom skin care solution. Keep in mind you should only mix this peptide at a **maximum rate of 10%**.

Used at anywhere between 1 and 10 percent this is one effective additive. Add the desired percentage to your favorite cream or gel and watch the cellulite start to melt away. This complex is derived from Citrus aurantium (subspecies amara), or Bitter Orange, it is a spiny evergreen tree that is native to Southern Vietnam but is now widely cultivated. It is used as a grafting stock for citrus trees, in marmalade, in liqueurs, and it is also cultivated for its essential oils. The extract of Bitter Orange has been used in dietary supplements as an aid to fat-loss, is known to have anti-cellulite properties, and is loaded with vitamins and minerals (especially Vitamin C).

INCI: Water & Propylene Glycol & Citrus Aurantium Amara (Bitter Orange) Flower Extract

Cautions: Do not apply undiluted peptides or additives directly onto your skin. This is designed to be added to a formulation at the recommended maximum usage rate or less.

You can use Bellahut's premium cream or gel as your base for your formulation.
