Bellahut's SYN-AKE Peptide

Helps Reduce Expression Lines, Crow's Feet & Wrinkles On The Forehead

Congratulations on your purchase of Bellahut's SYN-AKE Peptide. We pride ourselves on return customers so satisfaction from our customers is key and very important to us.

Please enjoy this product and if you have any questions please contact us at the email address above. Thank you for being a Bellahut customer!

Directions: Mix this peptide with a cream, gel or serum in order to make your own custom skin care solution. Keep in mind you should only mix this peptide at a **maximum rate of 4%**.

SYN-AKE is a small synthetic peptide that helps reduce the appearance of wrinkles and laughter lines, fast. As our skin gets older the number of expression and laughter lines increases, along with crow's feet and forehead wrinkles. SYN-AKE enables the face to relax, reducing wrinkles but without losing the ability to help people express themselves. It's fast acting, long lasting and fully reversible.

Benefits

- Age-killing effect particularly effective against expression lines
- Visible deep wrinkle smoothing after only one month
- Helps your face to relax without losing the ability to express yourself
- The depth of wrinkles is visibly reduced
- Overall visibly, less wrinkles and a smoother and more even skin surface

INCI: Water (and) Glycerin (and) Dipeptide Diaminobutyroyl Benzylamide Diacetate

Cautions: Do not apply undiluted peptides or additives directly onto your skin. This is designed to be added to a formulation at the recommended maximum usage rate or less.

You can use Bellahut's premium cream or gel as your base for your formulation.
