**Bellahut's Matrixyl Peptide
Reducing Wrinkles And Fine Lines**

Congratulations on your purchase of Bellahut's Matrixyl Peptide. We pride ourselves on return customers so satisfaction from our customers is key and very important to us.

Please enjoy this product and if you have any questions please contact us at the email address above. Thank you for being a Bellahut customer!

Directions: Mix this peptide with a cream, gel or serum in order to make your own custom skin care solution. Keep in mind you should only mix this peptide at a **maximum rate of 4%**.

Key Ingredients:

MATRIXYL is a pentapeptide (Palmitoyl-Lys-Thr-Thr-Lys-Ser) that mimics a fragment of Procollagen Type I by stimulating the matrix molecules (Collagen I, III and IV and Fibronectin) to reduce the appearance of wrinkles. This is confirmed by studies that have observed a significant decrease of wrinkle intensity. Matrixyl has been known to act as effectively as Retinol however, Matrixyl does not irritate the skin or cause skin hyper reactivity problems. Lastly, Matrixyl is easy to formulate and stabilize in cosmetic formulas. Matrixyl is also known for having long lasting effects.

Ingredients:

Matrixyl Peptide

INCI: Glycerin, Butylene Glycol, Aqua, Carbomer, Polysorbate 20 (and) Palmitoyl-Pentapeptide 3

Cautions: Do not apply undiluted peptides or additives directly onto your skin. This is designed to be added to a formulation at the recommended maximum usage rate or less.

You can use Bellahut's premium cream or gel as your base for your formulation.
