Bellahut's Phytocelltec – Nunatak Stem Cell Peptide

Has An Anti-Roughness Effect, Improves Skin Density & Improves Elasticity & Firmness

Congratulations on your purchase of Bellahut's Nunatak Stem Cell peptide. We pride ourselves on return customers so satisfaction from our customers is key and very important to us.

Please enjoy this product and if you have any questions please contact us at the email address above. Thank you for being a Bellahut customer!

This raw peptide is created from a rare flower that has survived the ice age by adapting to be able to survive the harshest winters. It creates superior anti-aging products that help boost collagen growth, create firmer skin and can be used on the face and body. Mix it in with your favorite cream, serum or gel to create a highly effective anti-aging product that uses the benefits of stem cell technology to help keep your skin looking and feeling great.

INCI: Saponaria Pumila Callus Culture Extract (and) Isomalt (and) Lecithin (and) Aqua/Water

Directions: Mix this peptide with a cream, gel or serum in order to make your own custom skin care solution. Keep in mind you should only mix this peptide at a **maximum rate of 1%**.

Cautions: Do not apply undiluted peptides or additives directly onto your skin. This is designed to be added to a formulation at the recommended maximum usage rate or less.

You can use Bellahut's premium cream or gel as your base for your formulation.
