Bellahut's Phytocelltec Argan Stem Cell Peptide

Improves Skin Density, Reduces Wrinkles & Protects Dermal Stem Cells From Deterioration

Congratulations on your purchase of Bellahut's Phytocelltec Argan Stem Cell Peptide. We pride ourselves on return customers so satisfaction from our customers is key and very important to us.

Please enjoy this product and if you have any questions please contact us at the email address above. Thank you for being a Bellahut customer!

Directions: Mix this peptide with a cream, gel or serum in order to make your own custom skin care solution. Keep in mind you should only mix this peptide at a **maximum rate of 1%**.

Phytocelltec – Argon - This stem cell peptide is created from a rare tree called the Argan tree (Argania Spinosa). Using stem cell technology this peptide helps to reduce wrinkles, works to plump and firm the skin and also works to help regenerate skin cells. As little as a half a percent mixture is needed to make any cream, gel or serum effective.

Ingredients:
Argania spinosa

Cautions: Do not apply undiluted peptides or additives directly onto your skin. This is designed to be added to a formulation at the recommended maximum usage rate or less.

You can use Bellahut's premium cream or gel as your base for your formulation.
