**Bellahut’s Phytocelltec Symphytum Stem Cell Peptide
 Helps Speed Rejuvenation Of Skin Cells**

Congratulations on your purchase of Bellahut’s Phytocelltec Symphytum Stem Cell Peptide. We pride ourselves on return customers so satisfaction from our customers is key and very important to us.

Please enjoy this product and if you have any questions please contact us at the email address above. Thank you for being a Bellahut customer!

Directions: Mix this peptide with a cream, gel or serum in order to make your own custom skin care solution. Keep in mind you should only mix this peptide at a **maximum rate of 1%**.

Phytocelltec – Symphytum - This peptide has an ingredient that has been used since ancient times in order to help speed healing. Using the stem cell extract of these flowers has created an incredible opportunity to create skin care products that have the power to help speed the rejuvenation process giving the skin the ability to heal itself quickly and provide a more youthful look and feel.

Ingredients:
 Symphytum officinale

Cautions: Do not apply undiluted peptides or additives directly onto your skin. This is designed to be added to a formulation at the recommended maximum usage rate or less.

You can use Bellahut's premium cream or gel as your base for your formulation.
