Bellahut's Deep Wrinkle Defense Complex Helps fill in deep wrinkles and reduce the length of deep wrinkles		
<p>Congratulations on your purchase of Bellahut's Deep Wrinkle Defense Complex. We pride ourselves on return customers so satisfaction from our customers is key and very important to us.</p> <p>Please enjoy this product and if you have any questions please contact us at the email address above. Thank you for being a Bellahut customer!</p>	<p>Bellahut's Deep Wrinkle Defense Complex is a specially formulated peptide complex that is focused on lessening the depth of deep wrinkles and reducing the length of deep wrinkles.</p> <p>Key Ingredients:</p> <p>Matrixyl (aka Palmitoyl-Pentapeptide-3) is the trade name for a pentapeptide produced by a French supplier to the cosmetics industry. Proven in clinical studies to improve wrinkle appearance more rapidly than Retinol. The use of Matrixyl has been shown to reduce the appearance of fine lines, wrinkles, age spots. Matrixyl is one of the most effective raw materials available to the cosmetic scientist for anti-aging products.</p> <p>Matrixyl 3000 is an amazing collagen builder and is the trademark name for palmitoyl pentapeptide-3, one of the powerful peptide molecules found in the latest generation of high-end anti-wrinkle skin care products. This breakthrough ingredient stimulates collagen production in the skin and can even give BOTOX® injections a run for their money in the anti-wrinkle department. Matrixyl becomes even more effective when combined with other peptides. Researchers reported, "A highly significant reduction in the deep and moderate wrinkles was obtained on the side treated with 3% Matrixyl. At the conclusion of the study, the surface area occupied by deep wrinkles was reduced by mean of 68%. The surface area occupied by moderate wrinkles was reduced by mean of 51%."</p> <p>Matrixyl S6 is the latest addition to the Matrixyl family of peptides. This peptide focuses on stimulation of six major contents of the skin. Collagen I, Collagen III, Collagen IV, Fibronectin, Hyaluronic Acid and Laminin-5. Studies have shown collagen type I had increased by 105%, collagen type III had increased by 104% and collagen type IV had increased by 42%. When applied as a crow's feet treatment studies have shown a reduction in wrinkles by over 16% and when applied as a treatment for wrinkles on the forehead studies have shown a reduction in wrinkles by 32%.</p>	<p>Ingredients: Matrixyl, Matrixyl 3000 & Matrixyl S6</p>
<p>Directions: Mix this peptide with a cream, gel or serum in order to make your own custom skin care solution. Keep in mind you should only mix this peptide at a maximum rate of 10%.</p>		<p>Cautions: Do not apply undiluted peptides or additives directly onto your skin. This is designed to be added to a formulation at the recommended maximum usage rate or less.</p> <p>You can use Bellahut's premium cream or gel as your base for your formulation.</p>
