Bellahut’s Lemon Peel Bioferment Extract

Lightens Skin, Evens Skin Tones & Helps Reduce Dark Spots.

Congratulations on your purchase of Bellahut’s Lemon Peel BioFerment. We pride ourselves on return customers so satisfaction from our customers is key and very important to us.

Please enjoy this product and if you have any questions please contact us at the email address above. Thank you for being a Bellahut customer!

Key Ingredients:

Alpha-Hydroxy acid: This citric acid also known as citrus medica helps to lighten skin, even skin tones and balance skin tones. AHA is a great way to take a more natural approach to balancing skin tones and reducing pigmentation in the skin. The multistep process used to create this Biofermentation extract creates an allergen free additive. Don’t forget it is also has antioxidant properties to help protect your skin.

Ingredients: Glycerin, Water, Lactobacillus, Alpha-Hydroxy acid.

Directions: Mix this peptide with a cream, gel or serum in order to make your own custom skin care solution. Keep in mind you should only mix this peptide at a **maximum rate of 4%.**

Cautions: Do not apply undiluted peptides or additives directly onto your skin. This is designed to be added to a formulation at the recommended maximum usage rate or less.

You can use Bellahut's premium cream or gel as your base for your formulation.
