100% Hyaluronic Acid Serum		
<p>Congratulations on your purchase of Bellahut’s 100% Hyaluronic Acid Serum. This serum is made from non-animal stabilized hyaluronic acid which is a pure plant-based form of hyaluronic acid. Products of this quality tend to have a cost of nearly three to four times more than the Bellahut Price. All of our creams and serums are proudly made in the U.S.A. and have been since inception. We pride ourselves on return customers so satisfaction from our customers is key. Please enjoy this product and if you have any questions please contact us at the email address above. Thank you for being a Bellahut customer!</p>	<p>Key Ingredients:</p> <p>Hyaluronic acid is a naturally occurring acid found in the extracellular matrix of human tissue. Topically applied, hyaluronic acid forms an air permeable layer and penetrates into the dermis thus boosting the elasticity by affecting the collagen levels and increasing hydration of the skin.</p>	<p>Ingredients:</p> <p>Deionized Water, Sodium Hyaluronate (nasha grade), Aloe Barbadensis (Aloe Leaf) Gel, Vegetable Glycerine, Cucumis Sativus (Cucumber) Fruit Extract, Chrysin, Palmitoyl Oligopeptide, N-Hydroxysuccinimide, Palmitoyl Tetrapeptide-7, Steareth-20, Polysorbate- 20, Carbomer, Phenoxyethanol and Caprylyl Glycol (Optiphen®).</p>
<p>Directions: Apply on cleansed and toned skin either day or night as often as needed. Twice daily is recommended.</p> <p>Mix in peptides and additives to create your own targeted solution. Bellahut offers dozens of high-quality peptides and additives to choose from at Bellahut.com.</p>		<p>Cautions: Although rare, should you experience any irritation discontinue use of this product. Bellahut’s hydrating serums hydrate so well that it is possible to overhydrate. Overhydration can cause small bumps on the skin. If this occurs, stop using this product for three days and your skin should return to normal. You may start using again at a reduced rate, we recommend every-other day, at this point.</p>
